Geography Learning Journey

- Geography Of -
- War and Conflict
- Middle East
- Arctic vs Antarctic
- Our Natural World
- Dynamic Development

Y9

Y8

- Restless Earth
- Global Connections
- Rivers
- Sustainability
- Russia
- Asia

- Geography Skills
- UK Context
- Weather and Climate
- Coastlines
- Population and Urbanisation
- Africa

Y7

- Superpowers
- The Water Cycle and Water Insecurity
- Health, Human Rights and Intervention
- The Carbon Cycle and Energy Security

Y12

- Distinctive Landscapes
- Resource Reliance
- Geographic Exploration
- Exam Consolidation

Y10

Y13

- Globalisation
- Tectonic Processes and Hazards
- Regenerating Places
- Coastal Landscapes and Changes

Y11

- Global Hazards
- UK in the 21st Century
- Sustaining Ecosystems
- Urban Futures
- Climate Change

Our Key Stage 4 Curriculum

RECOGNISING ACHIEVEMENT

*"I never knew how many topics would come under the subject of Geography. It is a very diverse subject."
Year 11 Student*

At GCSE students are entered for GCSE qualifications with OCR B. Students will study both human and physical geography, as well as be examined on their geographical and fieldwork skills.

Human topics: UK 21st Century, Urban Futures, Resource Reliance, Dynamic Development.

Physical topics: Global Hazards, Changing Climate, Distinctive Landscapes, Sustaining Ecosystems.

Fieldwork: Two days in the field. One day studying urban regeneration in Stratford, and the second studying river processes in Epping Forest.

Excellence

Our Key Stage 5 Curriculum

At A Level students have the opportunity to study towards qualifications with Edexcel. Students will study a diverse range of topics, conduct fieldwork and complete an Independent Investigation (coursework).

Example of Human Geography topics: Globalisation, Regenerating Places.

***“Geography has given me a new perspective of the world. It has inspired me to take my learning further and study ecology at university.”
Year 13 Student***

Example of Physical Geography topics: Hazards and Tectonic Processes, The Carbon Cycle and Energy Insecurity.

Fieldwork: 4 days in the field studying coastal landforms and processes in Cornwall. One day in the field studying Urban Regeneration in East London.

Year 13 Cornwall Residential, July 2023

Frequently Asked Questions

1. **Do all students study Geography?** Yes, all students study Geography in year 7, 8 & 9. They will choose to study this as an option at GCSE level.
2. **How many field trips are there?** Every GCSE student will have 2 opportunities to take part in fieldwork. At A-Level, students practice fieldwork skills in Canary Wharf and go on a 4 day residential to Cornwall.
3. **How many assessments are there in year 7?** We assess the students after each topic in the form of an end of topic test (as either exam papers, reports or presentations). There are approximately 6 assessment points in the year.
4. **How do you decide what topics you teach the year 7 students?** We have developed our scheme of work by closely looking at the National Curriculum and GCSE specification. Here we create topics that are going to be relevant and engage our students, whilst teaching them the skills they require to be well rounded Geographers.
