

## **Codes for Y11 into 12 Transition Classrooms 2021**

### **These Google Classrooms are only accessible to Vyners Y11 students**

Subject teachers have been busy populating Google Classrooms which Year 11 students are invited to join from today. A-level teachers will be setting tasks in these classrooms to form a transition from GCSE to A-level study.

There is also a 'Continuation Room' in English and in Maths for those students who want to continue revision in these subjects at GCSE Level, and an Information Room with suggested activities that students can do to build their skills and experiences base as they move into KS5.

Students should join those classrooms for the subjects applied for in the Sixth Form and can also use this opportunity to visit and explore other subjects of interest. Students should work through these resources and if they do enrol to study the subject in Vyners Sixth Form, they should bring the completed work with them to their first Y12 lesson.

It is important to note that joining a Google Classroom does not guarantee a place in the Sixth Form; this is dependent on students meeting entrance criteria.

Students should log into Google Classroom and click on the + sign to join a classroom. The classroom codes are listed below.

Please use these rooms to ask any questions you may have about the subject.

We hope that you find these rooms useful and informative. If you have any further queries about Y11 Transition, please do not hesitate to contact [sixthformadmin@vynersschool.org.uk](mailto:sixthformadmin@vynersschool.org.uk).
