

Environmental sustainability week Daily update: Tuesday 12th November 2024

We are delighted to share an image from our video to mark the opening of our second Trust-wide environmental sustainability week which includes students forming one letter in each school; the drone footage has been used to emphasise an important message for our week:

We would like to thank the staff involved in organising this, in particular Sally Brown, Vyners, Gurjeet Kohli, Vyners, Justin Barrett, central team, Richard Gould, Ruislip High, and Ceri Ohana, Ruislip High. All headteachers read out the Trust's pledge for the week ([click here](#)); a hardcopy has been signed by headteachers and a copy will shortly be displayed next to the one from our first Trust-wide environmental sustainability week in February 2023 ([click here](#)).

The second daily quiz to be completed is now ready. The video is of David Attenborough, People's Advocate for COP26, addressing world leaders on climate action ([click here](#) for video and [click here](#) for quiz). Students have until 5pm on Thursday 14th November 2024 to complete the quiz if they would like their score to be entered into the overall competition. Monday's quiz closes at 5pm on Wednesday 13th November 2024 ([click here](#) for video and [click here](#) for quiz) and tomorrow's quiz will be released in Wednesday's daily flyer and it is on a video called 'Is Climate Change the Same as Global Warming?' ([click here](#)).

COP 29 continues today with the World Leaders Climate Action Summit; a wide variety of talks and workshops have taken place throughout the day ([click here](#) for information).

The school-based activities are now well underway. Several schools have been playing the Emission Control board game where they compete to reduce the most carbon emissions. Ryefield held their book swap where KS2 students brought in books to exchange with other students.
