

Environmental sustainability week Daily update: Wednesday 13th November 2024

Activities for environmental sustainability week have continued across the Trust. At Oak Farm, the students went pond dipping, finding creatures and examining them under microscopes. Students at Field End had a uniform and costume sale and Ryefield students had fun playing the Emission Control board game and carried out a litter pick in the local park.

The third daily quiz to be completed is now ready. The video is called *'Is Climate Change the Same as Global Warming?'* ([click here](#) for video and [click here](#) for quiz). Students have until 5pm on Friday 15th November 2024 to complete the quiz if they would like their score to be entered into the overall competition. Tuesday's quiz closes at 5pm on Thursday 14th November 2024 ([click here](#) for video and [click here](#) for quiz) and tomorrow's quiz will be released in Thursday's daily flyer; it is on a video called *'Warmest January on record indicates sweltering 2024'*.

We would also like to remind students again of our slogan and image competitions ([click here](#)) with the deadline of 6pm on Monday 18th November 2024.

The World Leaders Climate Action Summit continued today at COP 29. It included talks about topics such as aviation's climate impact and the innovative use of ocean-bound plastic ([click here](#) for more information).

Finally, the 'live' totals from the *'how low can we go?'* challenge are now available and are shown below.

'How low can we go?' challenge participation figures
