## **Home Protect Filtering**

When students are using the internet on School premises we use content filtering to ensure that inappropriate content is blocked as much as possible. When students are learning from home we have a responsibility to ensure the same policies apply when they sign in with their School accounts. Students may be signing in to school accounts using personal devices or devices loaned by the School. We are implementing "HomeProtect" content filtering from London Grid for Learning. The 'Home Protect' filtering will only apply when the student is logged in with their Vyners account into Google Chrome. If your child is using a family device that others use then the student should ensure they are logged out of their school account before other family members use the device so that the filtering does not apply.

If you would like to have parental controls on your personal devices then the Safer Internet Website has some useful suggestions.

https://www.saferinternet.org.uk/advice-centre/parents-and-carers/parental-controls-offeredyour-home-internet-provider

If you have any questions regarding Home Protect please email office@vynersschool.org.uk

## Signing out of Google Chrome School Account

Click on the profile picture icon in top right of the screen.

		_	ā ×

Web Store Add shortcut			

# Click on the "sync is on" icon

	Test Student
-	R Testuse 18testuser@vynersschool.org.uk
	(or) (E) (Q)
0	Sync is on
G	んえ Manage your Google Account

## Click "Turn off"

R Testuse Syncing to 18testuser@vynersschool.org.uk	Turn off
Sync and Google services	,
Manage your Google Account	Z
Chrome name and picture	•
Import bookmarks and settings	•

You will get a warning message saying that your details will be removed from the device because you are signing out but your data remains safe in your account.

Turn off sync and personalisation?
Because this account is managed by vynersschool.org.uk, your bookmarks, history, passwords and other settings will be cleared from this device. However, your data will remain stored in your Google Account and can be managed on Google Dashboard.
Cancel Clear and continue

#### Click on "Clear and continue"

The Chrome session should now close. When you open again you are then able to log into any personal account you may wish to.
