

10 March 2023

**Vyners School**  
Striving for Excellence

Dear Parent / Carer

**Subject      Year 7 and 8 Science Intervention Group**

Following the end of term assessment in January, the Science department has identified a few students who may benefit from attending Science Intervention. It will last for 9 weeks from **17 April 2023 to 19 June 2023** and will be from **3:05pm to 3:50pm**.

**Year 7 every Monday week A and B**  
**Year 8 every Wednesday week A and B**

As all children progress at different rates, there may be times when a teacher feels a child may benefit from joining an intervention group which would be in addition to every day class teaching. In some cases, this may be because we feel a child is not completely reaching their full potential and may need 'a little extra push' or it may be to 'catch up' in a particular area due to missing work from illness etc.

These sessions will be run by the Science staff and a full programme of work has been planned for your child that will close any gaps or address any misunderstandings that have arisen in their learning. The summer term assessment should enable staff, students and parents to see the impact of these sessions on student performance and help identify any students requiring further support early in the following year.

To enable us to organise teachers and group numbers, could you please complete [this](#) google form if you would like your child to be included in the Science Intervention Group by the end of **Wednesday 15 March 2023**.

If you have any questions or concerns please do not hesitate to contact me ([aperan@vynersschool.org.uk](mailto:aperan@vynersschool.org.uk)).

Yours sincerely

Mr A Peran  
Assistant Subject Leader Science
