Dear Parents and Carers

Re: Reinforced Autoclaved Aerated Concrete (RAAC) - DfE Verification

I am pleased to be able to inform you that we have this week received formal written notification from the Department for Education (DfE) that no RAAC related construction is evident at the school and that no further investigations will be instructed by the DfE on the school site.

Whilst there is a degree of disappointment in relation to the initial investigation that suggested that RAAC may have been present at the school, I am sure that, as parents, you will understand that the measures taken were necessary to prioritise the health and safety of the staff, students and visitors.

I would like to thank parents, staff and students for their understanding throughout this period.

Yours sincerely

Gary Mullings
